

First Term

CLINICAL ROTATION

Course Description:

The Introductory Pharmacy Practice Experience develops the student's professional insights and skills progressively, whereas the Advanced Pharmacy Practice Experience (APPE) develops the student's own practice of pharmaceutical care through added responsibilities and service duties.

During the Nine APPE rotations, the student will have multiple opportunities to perform patient centered care in a variety of settings. APPE rotations hone the practice skills, professional judgement, behaviors, attitudes and values, confidence, and sense of personal and professional responsibility required for each student to practice independently and collectively in an interprofessional, team based care environment.

Each APPE learning outcomes identifies the competencies to be achieved, level for student responsibility and requirements to be met.

The student will be oriented to each selected/assigned rotations at the beginning of each rotation, then his/her performance is assessed at mid and end of rotation utilizing the rotation specific student evaluation form. The student should be well aware of the fact that the learning activities includes direct patient care, interprofessional interaction and practice, medication dispensing, distribution, administration, system's management, and professional development.

There are **Four core** rotations of **Five weeks** each:

- 1- Internal Medicine
- 2- Critical Care
- 3- Advanced Community pharmacy
- 4- Advanced Institutional/Inpatient Pharmacy

In additions to 22 approved elective rotations

- 1- Nephrology
- 2- Solid Organ Transplant
- 3- Oncology/Hematology
- 4- Pediatrics
- 5- Neonatal
- 6- Emergency Medicine
- 7- Pharmacy Administration
- 8- Drug Information Center
- 9- Pharmacoeconomic and Formulary Management
- 10- Surgery
- 11- Drug Manufacturing
- 12- Drug Company
- 13- Medication Safety
- 14- Pharmacy Quality Assurance
- 15- Infectious Diseases
- 16- Academia
- 17- Health Informatics
- 18- Advanced Institutional Outpatient
- 19- Cardiology
- 20- Saudi FDA
- 21- Toxicology and Poison Control
- 22- Supply Chain (Pharmaceutical Planning and Procurement)

Second Term

CLINICAL ROTATION

Course Description:

During the Nine APPE rotations, the student will have multiple opportunities to perform patient centered care in a variety of settings. APPE rotations hone the practice skills, professional judgement, behaviors, attitudes and values, confidence, and sense of personal and professional responsibility required for each student to practice independently and collectively in an interprofessional, team based care environment.

Each APPE learning outcomes identifies the competencies to be achieved, level for student responsibility and requirements to be met.

The student will be oriented to each selected/assigned rotations at the beginning of each rotation, then his/her performance is assessed at mid and end of rotation utilizing the rotation specific student evaluation form. The student should be well aware of the fact that the learning activities includes direct patient care, interprofessional interaction and practice, medication dispensing, distribution, administration, system's management, and professional development.

There are **Four core** rotations of **Five weeks** each:

- 5- Internal Medicine
- 6- Critical Care
- 7- Advanced Community pharmacy
- 8- Advanced Institutional/Inpatient Pharmacy

In additions to 20 approved elective rotations

- 23- Nephrology
- 24- Solid Organ Transplant
- 25- Oncology/Hematology
- 26- Pediatrics
- 27- Hepatology
- 28- Neonatal
- 29- Evidence Base Medicine
- 30- Pharmacy Administration
- 31- Drug Information Center
- 32- Pharmacoeconomic and Formulary Management
- 33- Surgery
- 34- Drug Manufacturing
- 35- Drug Company
- 36- Medication Safety
- 37- Pharmacy Quality Assurance
- 38- Infectious Diseases
- 39- Academia
- 40- Informatics
- 41- Advanced Institutional outpatient
- 42- Cardiology

Third Term

CLINICAL ROTATION

Course Description:

The Introductory Pharmacy Practice Experience develops the student's professional insights and skills in a progressive manner, whereas the Advanced Pharmacy Practice Experience (APPE) develops the student's own practice of pharmaceutical care through added responsibilities and service duties.

During the Nine APPE rotations, the student will have multiple opportunities to perform patient centered care in a variety of settings. APPE rotations hone the practice skills, professional judgement, behaviors, attitudes and values, confidence, and sense of personal and professional responsibility required for each student to practice independently and collectively in an interprofessional, team based care environment.

Each APPE learning outcomes identifies the competencies to be achieved, level for student responsibility and requirements to be met.

The student will be oriented to each selected/assigned rotations at the beginning of each rotation, then his/her performance is assessed at mid and end of rotation utilizing the rotation specific student evaluation form. The student should be well aware of the fact that the learning activities includes direct patient care, interprofessional interaction and practice, medication dispensing, distribution, administration, system's management, and professional development.

There are **Four core** rotations of **Five weeks** each:

- 9- Internal Medicine
- 10- Critical Care
- 11- Advanced Community pharmacy
- 12- Advanced Institutional/Inpatient Pharmacy

In additions to 20 approved elective rotations

- 43- Nephrology
- 44- Solid Organ Transplant
- 45- Oncology/Hematology
- 46- Pediatrics
- 47- Hepatology
- 48- Neonatal
- 49- Evidence Base Medicine
- 50- Pharmacy Administration
- 51- Drug Information Center
- 52- Pharmacoeconomic and Formulary Management
- 53- Surgery
- 54- Drug Manufacturing
- 55- Drug Company
- 56- Medication Safety
- 57- Pharmacy Quality Assurance
- 58- Infectious Diseases
- 59- Academia
- 60- Informatics
- 61- Advanced Institutional outpatient
- 62- Cardiology
